For Appointment : 78925 67565, 93800 64257

MEDICAL CERTIFICATE

TO WHOMSOEVER IT MAY CONCERN

23 DECEMBER 2024

This is to certify that I have clinically evaluated Mrs. Madhavi G, age 38 years. She is suffering from bronchial asthma. She is under my treatment from past 2 month for exacerbations. Due to the condition, it is advised that she avoid exposure to dust, excessive heat, and cold air, as these may trigger respiratory symptoms. Additionally, adequate rest and avoiding strenuous activities are essential for management of the condition. It is also recommended that she minimize direct exposure to air conditioning and follow a diet free from known allergens.
